In Pursuit of SERVICE EXCELLENCE

A PROGRESSIVE PARTNERSHIP

TURNING THE TIDE IN YOUR FAVOUR

Fraud in Malaysia is not only getting more sophisticated and complex but increasing in scope and diversity.

As insurers, you will be the first to agree with us that the number of fraudulent claims, especially in bodily injuries, is increasing at an alarming rate. Unless we are willing to let this trend go unabated and unchallenged, we must approach the whole problem from a new perspective.

At Progressive Adjusters, we strongly believe that to turn the tide in your favour, we must form a strategic partnership to forge an alliance that will allow us to be vigilant and judicious when assessing all your insurance claims.

And how do we do this?

We at Progressive have a cardinal rule; before assigning any adjuster to the field, our experienced Investigators who are specialised in investigation works brief the Adjuster on the particular area where special attention is required for each assignment and informs him what to look out for. The minute something appears to even hint at fraud, our Specialists becomes directly involved in pursuing the matter to its conclusion. That's how we are continually exposing many false and wrongful claims that seem to be the norm rather than the exception these days.

Fraud detection is not everything that we do. Our well trained Adjusters perform discreet and in-depth investigations into the physical conditions of injured parties to determine their actual disabilities, if any with evidenced by photographs and if necessary by video clips.

We are all well aware that fraud also involves inflating claims, especially in the area of loss of earnings. Our Adjusters have special instructions to look out for such instances and to establish the actual situation backed up with surveillance by taking photographs whilst the plaintiff is engaged in work and with documentary evidence from employer concerned.

There's an old axiom in insurance which we have given a slightly new twist, ***"because of these fraudulent few, the many will suffer."***

GIVING YOU A FAIR DEAL

We bring to bear in this partnership over 45 years of unalloyed experience in the Insurance Claims Adjusting Industry which we will invest upfront to assist you cut operating cost by ensuring only genuine claims are entertained.

Our function in this partnership is to protect you from paying higher claims as we filter out the bad and doubtful cases.

A little more about who we are and why it will be of a mutual benefit to you and the industry as whole to form this strategic partnership.

PROGRESSIVE ADJUSTMENT SDN. BHD.

The company operates strictly in line with Bank Negara Malaysia guidelines and it is involved in all aspects of Loss Adjusting serving local and foreign Insurance Companies. Our areas of specialisation range from Motor Liability to Non-Motor Claims.

During the company's growth over the years, we have forged a team of experienced investigators/adjusters and dedicated employees geared to provide quality and comprehensive range of services to our Principals.

Your esteemed organization will benefit from our vast experience in investigating areas such as Bodily Injury Claims, Motor Damage/Theft Claims, Personal Lines Business and all General Claims.

And we have been operating in Malaysia for the past 49 years. We understand the customs, conventions and culture of our society and this goes a long way in getting to the heart of the matter.

CHANGING TIMES, CHANGING TACTICS

The figures gathered over the past few years indicate a sudden jump in the number of fraud cases in almost all business sectors and this is most felt in the Insurance Industry. Unfortunately, most of these cases go unreported for obvious economic and social reasons.

We have observed that among the most abused areas in the industry and the most prevalent, are fraudulent bodily injury claims.

Due to this frightening trend, we have specialized in investigating such claims and provide valuable information backed with sufficient evidence to allow our Principals to repudiate liability.

Based on our continued proven track record in such cases, our Principals have benefited from our service and have entrusted us with highly questionable claims that require our skilled methods of investigations.

Since investigating Insurance Claims is a sophisticated science, we keep ourselves up-to-date with the latest techniques, methodology and technology that will allow us to authenticate any fraudulent claim.

And no report, however well done the research may have been, is any good if it is not delivered promptly to the Insurer. We make it a company convention to thrive in delivering our comprehensive and thorough reports as scheduled so that you can weigh and balance all the facts and figures before making a decision.

The challenges of the changing times have made it imperative that we not only keep pace with our profession, but it is essential that we constantly update ourselves with the relevant laws as well as the modus operandi employed by various unscrupulous parties.

At the end of the day, everything is backed by good old fashioned leg work. And we have been walking for more than 47 years now!

INTRODUCTION

PROGRESSIVE ADJUSTMENT SDN. BHD. commenced operations in Insurance Loss Adjusting industry in **1972** as a Sole Proprietorship known as **MALAYSIAN SERVICE**.

Our Company is one of the pioneer establishments in the Malaysian Loss Adjusting industry. We have been awarded with a Loss Adjusting license by the Malaysian Treasury (Department) for the practice.
